

RING THE BELL!

AMISTAD rang the bell excitedly early Tuesday morning at the Bolsa Mexicana de Valores (stock exchange) to mark the launch of its \$2.5 billion peso CKD (Capital Development Certificate) for industrial development projects throughout Mexico. The estimated \$140M USD fund is marked for logistics, automotive, aerospace, medical, appliance and other such manufacturing and distribution activities nationwide.

"We are committed to Mexico's role in the global marketplace" commented Claudio Ramon, AMISTAD's Co-Chairman of the Board that spearheaded the capital placement. "We are here this morning with our AMISTAD family to celebrate an important milestone in our 40-year trajectory. But we are excited to get back and put this capital to work and build more buildings!"
